- 1. Reasons for the need to solicit subscribers for share options on particularly favorable terms. The Company intends to issue share options to the executive officers and employees of the Company, and the directors, audit & supervisory board members, executive officers and employees of the Company's subsidiaries so as to contribute to the improvement of corporate value of the entire Group over the medium to long term by raising their awareness on the Company's shares and by carrying out the management of integrated organization and developing successors.
- 2. Persons to whom share options are to be allocated Share options shall be allocated to the executive officers and employees of the Company, and the directors, audit & supervisory board members, executive officers and employees of the Company's subsidiaries.
- 3. Details and the maximum number of share options whose subscription requirements may be determined by the Company based on the decision made by this General Meeting of Shareholders
- (1) Type and number of shares to be delivered upon exercise of share options Up to 1,000,000 shares of common stock.

In case the Company conducts a share split (including gratis allotment of shares) or share consolidation of the Company's common stock, the subject number of shares shall be adjusted by applying the following formula; provided, however, that the applied adjustment is performed on the number of shares underlying the share options that are not exercised in the aforementioned period and fractions of less than one share resulting from the adjustment are disregarded.

Number of shares after adjustment=Number of shares before adjustment x Ratio of share split or share consolidation

Furthermore, in events separate to the above that may occur after the day of resolution, including a merger between the Company and another company, the Company undergoing a company split, the Company reducing its capital, or other event where it is necessary to adjust the number of shares, the Company shall make the necessary adjustment to the extent reasonable.

(2) Number of share options

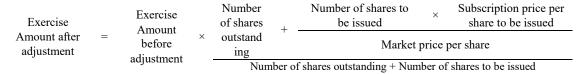

The maximum total number of share options to be issued within one year from the day of this General Meeting of Shareholders shall be set at 10,000. The number of shares for each share option (hereinafter referred to as the "Number of Granted Shares") shall be 100 shares; provided, however, if a share number adjustment set forth in "(1) Type and number of shares to be delivered upon exercise of share options" above is conducted, similar adjustment shall be applied to the Number of Granted Shares.

- (3) Payment amount for share options
 Payment of money for share options shall not be required.
- (4) Amount to be paid when share options are exercised Amount to be paid when share options are exercised shall be the paid amount per share that can be delivered by exercising the share options (hereinafter referred to as the "Exercise Amount"), multiplied by the Number of Granted Shares concerning the relevant share options.

The Exercise Amount will be the average value of closing price in regular trading of the Company's common stock on the Tokyo Stock Exchange (hereinafter referred to as the "Closing Price") on each day of the previous month of the date when the share options are allocated (hereinafter referred to as the "Allotment Date"), multiplied by 1.05. Note that the date when the trade was not effective is not included. Fractions of less than 1 yen will be rounded up. However, in the case the amount is lower than the Closing Price of the Allotment Date (when no Closing Price is published on that day, Closing Price of the nearest previous date shall be applied; the same shall apply hereinafter), it will be the Closing Price on the Allotment Date.

After the Allotment Date, in an event of a share split or share consolidation of the Company's common stock, or other event where it is necessary to adjust the Exercise Amount, it will be adjusted by the following formula, with fractions of less than 1 yen rounded up.

In addition, after the Allotment Date of the share options, in an event where the Company issues new shares of common stock or disposes of treasury shares of common stock at a price lower than market price, the Exercise Amount will be adjusted by the following formula, with fractions of less than 1 yen rounded up.

In the above formula, the "number of shares outstanding" is the number of the Company's outstanding shares of common stock, deducted by the number of shares of common stock in its treasury stock. In the case the treasury stock is disposed, the "number of shares to be issued" shall be treated as the "number of shares to be disposed."

Furthermore, in the case the Company is merged with another company, executes a company split, the Company reducing its capital, or other event where it is necessary to adjust the Exercise Amount after the Allotment Date, the Exercise Amount shall be adjusted within a rational range, subject to a resolution of the Board of Directors.

(5) Exercise period of share options

The exercise period shall be determined at the same meeting of the Board of Directors that determines the subscription requirements of the share options and shall be within a range beginning from the day two years after the day of the aforesaid meeting of the Board of Directors and ending on the day ten years after the day of the aforesaid meeting.

(6) Limits of acquisition of share options by assignment Acquisition of share options by assignment shall require approval of the Board of Directors.

(7) Fair value of share options

The Black-Scholes model, etc. shall be used to calculate the fair value of the share options based on various conditions including the share price of the Company's shares and the Exercise Amount on the Allotment Date.

(8) Exercise conditions of share options

- i) Holders of the share options are required to satisfy the condition of serving as a director, audit & supervisory board member or employee of the Company or its affiliated companies, even at the time of exercising the share options; providing that this requirement does not apply in cases where the Board of Directors finds a justifiable reason after taking various circumstances into account, such as the cases when a director or audit & supervisory board member of the Company or its affiliated companies resigns due to the expiry of his/her term of office, or retires at his/her mandatory retirement age, or where there are other justifiable grounds.
- ii) Exercise of share options by heirs to the holders of the share options is not permitted.

- iii) Exercise of share options is not possible if the said exercise of share options would cause the total number of issued shares of the Company to exceed the number of authorized shares at the relevant timing.
- iv) Exercise of less than a whole unit of share options is not possible.
- (9) Reasons and conditions for acquiring share options
- i) In the event that approval at the General Meeting of Shareholders (or a resolution by the Board of Directors where the approval of the General Meeting of Shareholders is not necessary) is obtained on a merger agreement whereby the Company becomes the dissolving company, a company split agreement or company split plan whereby the Company becomes the splitting company, or a share exchange agreement or share transfer plan whereby the Company becomes a wholly owned subsidiary, the Company may acquire all existing share options without contribution on the arrival of a date that is determined separately by the Board of Directors.
- ii) In the event that a share option holder can no longer exercise share options pursuant to the provisions stipulated in (8) above, the Company may acquire the said share options without contribution.
- (10) Other subscription requirements concerning share options may be decided by resolution at separately held meetings of the Board of Directors.
